

Addition Spinner A

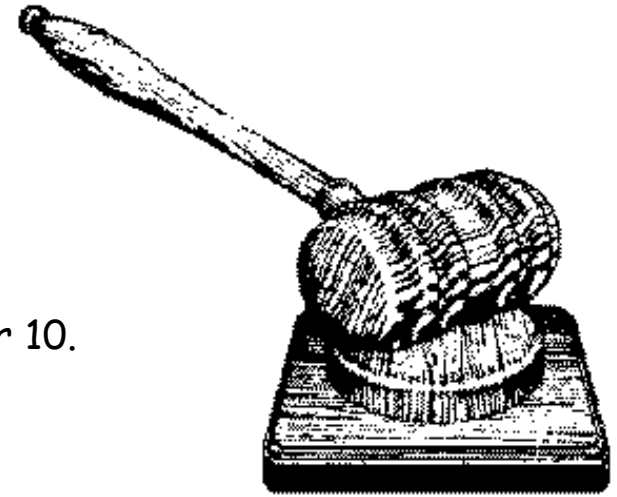

Order, Order !!

Goal: To have all boxes filled in from least to greatest.

1. The player with the shortest last name goes first.
2. The player spins the spinner and either adds the number to 1 or 10.
3. The player then chooses a box in which to put their sum.

Once a number is written in a box, it can't be moved.

4. If a player can't place a sum, he/she loses a turn.
5. Players take turns spinning.
6. The first player to fill in all of their boxes from least to greatest wins.
