

Addition Spinner G

Order, Order !!

Goal: To have all boxes filled in from least to greatest.

1. The player with the shortest last name goes first.
2. The player spins both spinners and adds 1 or 2 to the number.
3. The player then chooses a box in which to put their sum.

Once a number is written in a box, it can't be moved.

4. If a player can't place a sum, he/she loses a turn.
5. Players take turns spinning.
6. The first player to fill in all of their boxes from least to greatest wins.
