

Want to easily control which blogs are viewable by anyone and which can only be viewed by logged in users? You can with [Edublogs Campus](#) - give our [free Campus trial](#) a go!

Click on Tools.

To make the Download box always go away in Firefox. Follow these steps.

Add Category

Category Name

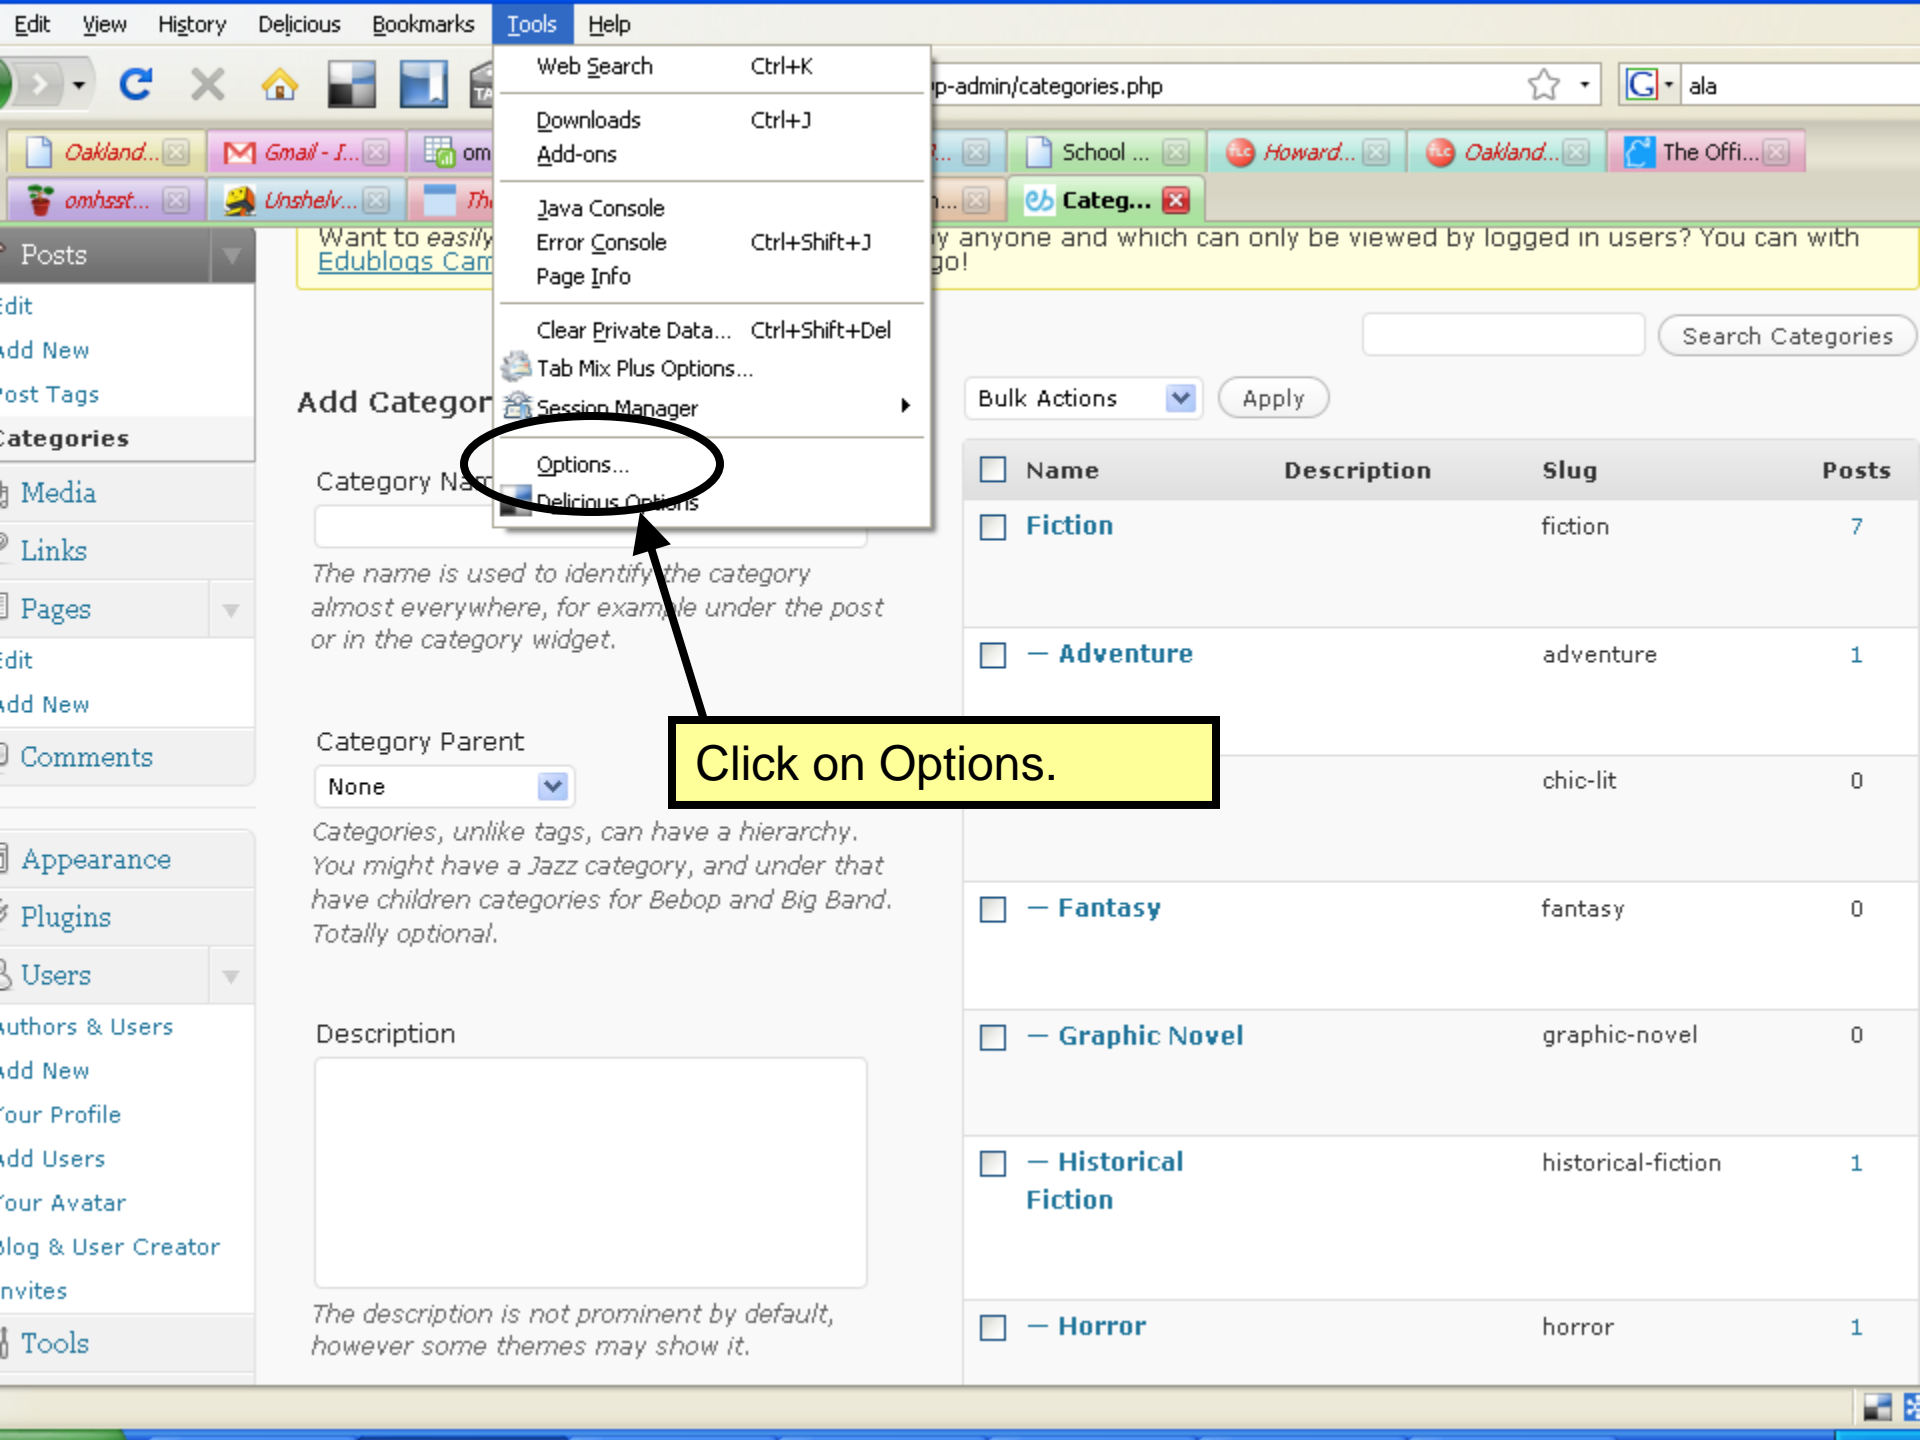

The name is used to identify the category almost everywhere, for example under the post

have a hierarchy. You might have a Jazz category, and under that have children categories for Bebop and Big Band. Totally optional.

Description

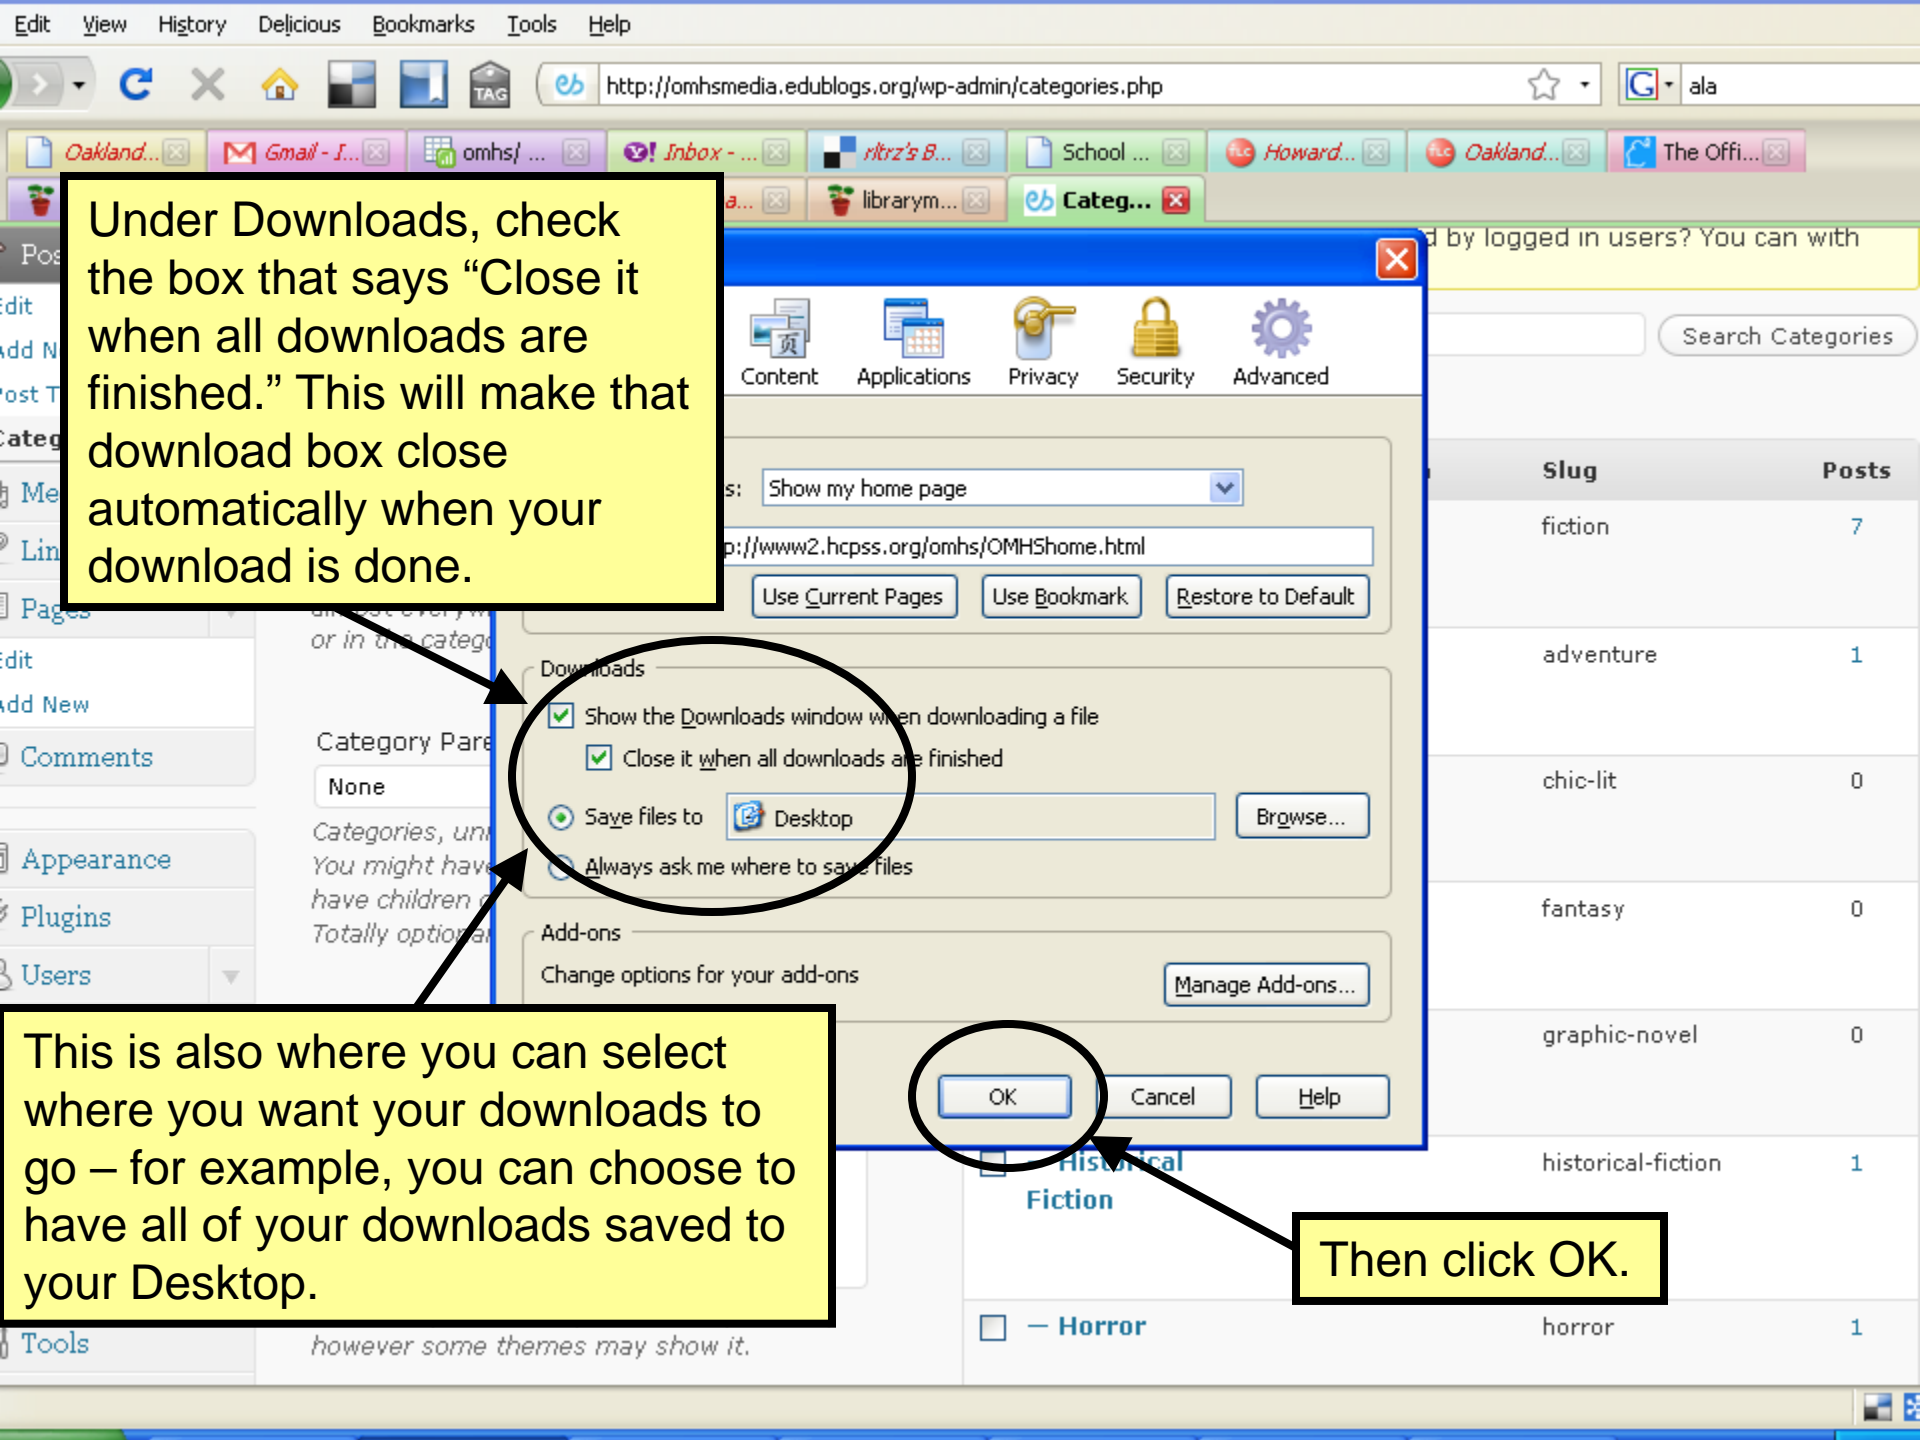

The description is not prominent by default, however some themes may show it.

<input type="checkbox"/>	Name	Description	Slug	Posts

<input type="checkbox"/>	- Horror		horror	1

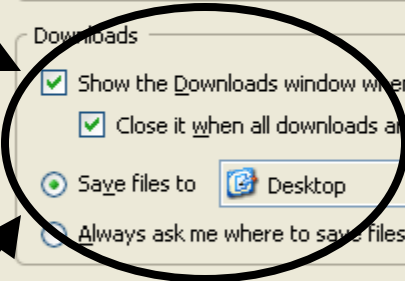

- Web Search Ctrl+K
- Downloads Ctrl+J
- Add-ons
- Java Console
- Error Console Ctrl+Shift+J
- Page Info
- Clear Private Data... Ctrl+Shift+Del
- Tab Mix Plus Options...
- Session Manager
- Options...**
- Delicious Options

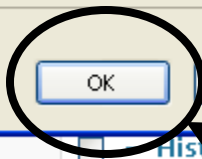

Click on Options.

Under Downloads, check the box that says "Close it when all downloads are finished." This will make that download box close automatically when your download is done.

This is also where you can select where you want your downloads to go – for example, you can choose to have all of your downloads saved to your Desktop.

Then click OK.
